

A tuning fork, with its vibrating note LA, controls and creates perfect harmony among musical instruments, perfect ingredients in a symphony of food.

Like fluid and resonant waves, three circles emanate from the heart of the Symbol:

Nature, Man and the Art of cooking.

The tuning fork faces upwards, to indicate what lies beyond, the path of excellence expressed in the name

PER-IL-LÀ – Go that way –

The lower part of the tuning fork the point where sound is amplified has the form of a mystic almond, the icon of Podere Forte of Rocca d'Orcia.

Osteria Perillà: decanting oil and wine, harvesting the freshest seasonal produce, the fragrance of our ingredients, to prepare these very special dishes.

Marcello Corrado
